Ondernemers voor Ondernemers - OVO

Come with us
to Benin,
Senegal, Rwanda
or Uganda!

Coach an African entrepreneur

Local entrepreneurship is a driving force that creates new opportunities.

Entrepreneurs for Entrepreneurs strengthens sustainable entrepreneurship in Africa.

→ Our approach

- OVO's SusTech4Africa program supports African SMEs in business development through personalized one-to-one coaching and access to loans of up to €50,000.
- Together with our local partners, we select candidates according to precise criteria for coaching and investment.
- They are then invited to attend a 3-day Boostcamp in their home country, during which training is provided by our academic partners (ICHEC and Thomas More).
- This is followed by 6 months of online coaching with a Belgian business coach and a local coach.
- Once the business plan is ready, it is submitted to the OVO Investment Committee, which decides whether to grant an affordable loan.
- The entrepreneur is supported in the development of their business until the repayment of the loan.

→ You can play a part in this process!

By taking part in one of our Boostcamps in Africa (Uganda, Rwanda, Senegal, or Benin). An experience that will make all the difference for the African entrepreneur but will be just as fascinating and enriching for you!

- Entrepreneur visit: immersion in the local business context.
- Co-coaching of an African entrepreneur during the 3-day training course.
- Cultural immersion: sightseeing, eco-tourism.
- You play the role of coach and help the entrepreneur analyze their business plan and pitch it at the final evening event.

By being a business coach via distance coaching. What skills do you need to be a business coach? Listening and encouraging!
